**Subject:** Windsurfing Patrols at Crissy Fields - Sundays

Hello,

We really need support for Windsurfing Patrols on these available dates:  
June 27  
July 4  
Aug 1  
Aux 8

**The Details: Station Golden Gate Sunday afternoons/early evenings, every Sunday from June 6 through Labor Day** - special windsurfer/kite surfer coverage near Crissy Field in conjunction with Station Golden Gate. This is a new, more formalized version of past programs and in this case the Aux. has been requested to focus on having a boat covering this activity every Sunday afternoon, a minimum on-scene times of 1600-1900 (starting earlier/staying later if surfers are still out is good too). The Aux. asset would remain in the vicinity of Crissy Field/Golden Gate Bridge under the radio guard of Station GG on channel 21A.

Jody Harris ([jody@harrischarters.com](mailto:jody@harrischarters.com)) and Doug Scruton ([Doug.Scruton@netapp.com](mailto:Doug.Scruton@netapp.com)) of Flotilla 1-2 are maintaining the schedule of which boats/coxswains are booked for each Sunday, and notifying Station Golden Gate of who is on each week. So please contact them to indicate what weeks you may be interested in so that they can fit you in the schedule and ensure all gaps are filled in. Once you have agreed to providing the coverage on a given date, please put your orders in POMS as soon as possible and indicate in comments that it's a Sunday pm windsurfer patrol (normal POMS orders procedures and activations, etc., of course still apply).

In addition, there is a special meeting and training session scheduled to be held at Station Golden Gate on Friday, June 4, 0800-1000, where all coxswains and crews interested in participating should try to attend. This training would be excellent for any coxswains and crew members who might ever come across a wind surfer or kite surfer needing assistance at any time or any place, and is not limited to those who might participate in these specific Sunday patrols! Please also notify Jody or Doug if you may be attending.

Please email me if you you have any questions / sigh ups.

Thanks

Jody Harris
