This class is recommended for all Operations Personnel and how to respond to an oils spill or mystery drum.</p>
<p>SEA PARTNERS Joseph Chavoen DSO-MS and others</p>		<p>This course covers how to put on Sea Partners, MEP events, or incorporate these activities with Your Existing PA events/booths. You will learn where to order the kits for MEP demonstrations (oil spills, shoreline cleanup, Sea Partners, etc. This Class will also demonstrate and you will participate with rotation to hands on stations/activities related to MEP topics. Those members working towards their Marine Safety Training Ribbon can use the Materials to complete their MEES PQS</p>
<p>INTRODUCTION TO MARINE SAFETY D11N Joseph Chavoen DSO-MS, w (potentially others)</p>		<p>This course covers the various MEP Outreach Programs as well as the Marine Safety Prevention and Response activities within District 1 North and is for All Auxiliary Members who would like to learn of the wide breadth of Opportunities for and Certifications within Marine Safety. These impart include AWW, Dock Walker and Sea Partners Outreach Mission for the Public. The presentation covers the support for CG Sector San Francisco Prevention and Response (each requires a PQS) including but not limited to; Uninspected Passenger Vessels, Commercial Fishing Vessels, Facility and Container Exams, Unispec. Towing Vessel Exams, Pacific Strike Team. IMD (ADV & HAZWHOPER), to name a few. The intent of this brief course is to provide a brief overview of the numerous opportunities for involvement within the Marine Safety and Environmental Protection Division of the Prevention Department and in cases the Response Department.</p>
<p>Radio Communications – Boat Crew Como Wally Smith (1 hour)</p>		<p>Overview of VHF-FM radio procedures and protocols for boat crew. When you are “out there” on an ordered patrol or just boating recreationally, what are the proper procedures and protocol for telecommunication via radio? This class includes proper procedures for communicating with other vessels or your “radio guard”, use of “pro words”, phonetics, and importantly the “Do’s” and “Do Nots”. Also reviews limitations of VHF-FM radio transmissions and includes an overview of the Rescue 21 system. A must class for coxswains, boat crew, and trainees prior to getting back underway this boating season.</p>
<p>Aviation Operations Larry Olsen, DSO-AV</p>		<p>This course will explain how to get involved in the Auxiliary Aviation Program, including the training and other requirements necessary for you to become qualified as Air Observer, Aircrew or Pilot. It will also provide an overview of Aux Aviation, the types of missions we are involved in and how they are integrated into surface and land-mobile operations.</p>
<p>AUXCA Linda Haynes (1 hr)</p>		<p>AuxCA and then the Sanitation class if AuxCAs would like</p>

<p>Contingency Communications – WHAT? WHY? And HOW? Larry Stanto, DSO-CM with Bill Scholz (1.5 hrs)</p>		<p>Lately there’s been a lot of talk in the AUX communications community about “Contingency Comms”, but with that talk there not been a lot of real information passed to the “deck plate”. This one hour session at DTRAIN 2022 will unveil what the talk is really all about, how it relates to our active duty Coast Guard partners and how it will help to satisfy one of the requirements that the District Eleven Commander has put on the senior leadership in both AUX regions in D11.</p> <p>So COME AND LEARN what it is, how you can contribute to its success and what you need to be a part of the CONCOM (Contingency Communications) team.</p> <p>TCO PQST – sign off by appointment at D-Train</p>
<p>Navigation for the Auxiliary Website Ann Zocchi , DSO-MT</p>	<p>All</p>	<p>Do you get lost on the auxiliary website. Well, look no further as we will navigate together to locate what you need to success within in the auxiliary.</p>
<p>Telecommunications Workshop Como Mike Maddox</p>		<p>This workshop is required of all operators and owners of Auxiliary Radio Facilities. It is required of those currently holding TCO, or in training for TCO qualification, and those who are using AUXCOM as their “grandfathered” qualification for radio operation. This does not apply to operation of radios on aircraft or vessels which are covered by crew certification.</p>
