A. Public Education Program.

1. Team Teaching. This allows two (2) or more instructors to work as partners while giving instruction to a class. It requires prior planning but is of immeasurable benefit to students because it introduces variety and change of pace. Instructors doing team teaching report their hours on the first line of two (2) separate Member Activity - Report - Mission, ANSC 7030.
2. Classrooms. Classrooms may be any government, public or private facility suitable for holding classes. Reserving such facilities is the responsibility of the sponsoring Flotilla or Division; **however, they may NOT sign any liability form.** The FSO-PE must forward all facility use licensing agreements to the DSO-LP. No class will be conducted in a facility where the issue of liability has not been satisfactorily resolved. **Only after approval by the DSO-LP** can the contract be signed by the District Commodore, Division Captain, or Flotilla Commander.
